## **CERTIFICATE OF COMPLIANCE & TESTING**

### **HORIZONTAL SWING CHECK VALVES**

Horizontal swing check valves are offered in 2" through 24" sizes with flange ends. The valves are rated for 200 psig (2"-12") and 150 psig (14"-24") working pressure and manufactured in compliance with the AWWA C508 Standard. 2"-12" valves meet NSF61 standards. All check valves are flanged and comply with 125# ANSI B16.1 Standard. These valves also comply with MSS SP-71 specifications. 2"-12" valves are manufactured in Elmira, NY and 14"-24" valves are manufactured in Anniston, AL.
